

3-DAY Certified Water Sampling Class

October 19-21, 2010 - McClellan, CA

Water Sampling

3 - Day "Hands On" Class

Certified Water Sampler Certificate of Competence
California Title 22, Section 64415 - Laboratory and Personnel
18.0 Contact Hours /1.8 CEU's
Tues.-Thurs., October 19 - 21, 2010

This class provides accredited classroom instruction in all of the mandated procedures required for proper collection of water samples in the distribution system. Students will complete basic laboratory collection procedures in accordance with methods prescribed in Standard Methods for the Examination of Water and Wastewater. These include: coliform bacteria, HPC's, temperature, pH, color, turbidity and residual chlorine. The class also provides proper instruction procedures for the collection of IOC's, SOC's, VOC's, Lead-Copper, nitrites / nitrates and asbestos. Instruction in collection procedure will cover the proper selection of container types and sizes from 50 ml to 1000 ml; sample preservation requirements, including refrigeration at 4/C to packing samples with cold packs, and more. Chain-of-Custody documentation and instruction in current State and Federal regulations will be presented. All classes will be instructed by experienced working chemists. A final examination will be administered and a passing grade of 70% must be achieved to pass.

Check here if you want individual class workbooks sent on ahead to study before your class date(s). Add \$6.00 postage for each manual requested. I understand that my class enrollment fees will not be refunded if I do not attend the class.
